

**Znojmo, 4-8 June 2014**  
**<http://ceqip.eu/>**

## **ENTRAL UROPEAN**

CEQIP workshops are traditionally focused on current theoretical challenges and paradigms of quantum information processing. This year the conference will take place in a former monastery (originally from 12th century) that simultaneously serves as a storage and presentation area of one of the top Czech wine producers.

## **UANTUM NFORMATION**

### **INVITED SPEAKERS**

Fernando Brandao
